Description

- Laminated polyethylene cloth, single coated with high tack synthetic rubber adhesive.
- Moisture proof and waterproof, chemical resistant.
- Easy to remove. Leave no residue.
- Excellent for side seam of carpet.
- Versatile general purpose tape for various usage such as fixing, bundling, holding, securing and packaging.

Specification

Backing	Polyethylene coated cloth
Mesh	70
Adhesive	Synthetic rubber, white
Thickness	0.2 ± 0.01 mm
Adhesion to steel	≥ 18 N/25 mm
Tack ball #	≥ 16#
Tensile strength	≥ 85 N/25 mm
Temp. Resistance	60°C

Application

- Flooring and carpeting, Bundling, Holding, Sealing, Packaging
- Use in Exhibition and Events, Building and Construction, Heating, Ventilation and Air Conditioning (HVAC)

Feature & Benefits

- Polyethylene plastic backing for waterproofing.
- Cloth middle layer helps to facilitate tearing by hand.
- Rubber adhesive helps to resist water and provides for a durable hold.

Storage & Usage

- Store in cool and dry environment, away from direct sunlight.
- To be used within 12 months of date of shipment.
- Surface should be clean, dry and free of grease, oil.
